

VIEW THE WORLD FROM A DIFFERENT PERSPECTIVE WITH MOTORIZED SHADES

COLOURVUE

COLOURVUE CONTROL

THE PERFECT COMBINATION OF LIGHT AND SHADE

Colourvue Control motorized roller shades uniquely combine both fashion and functionality for the modern day home, giving you simple control of your privacy, sunlight, and heat with a touch of a button.

Colourvue Control gives you the versatility to invite as much or as little of the outside world in as you choose, from showcasing your landscape vistas, to embracing a little more privacy in your intimate living spaces.

Whether you prefer to make a bold design statement, or subtly harmonize interiors with your existing decor, our stylish range of fabrics complement both traditional and contemporary homes but offer an innovative window covering solution to meet your everyday needs.

Our beautiful fabrics are engineered to allow you to effortlessly manage light and shade with a range that includes styles that screen the sun's glare or allow varying degrees of light filter. Choose total blackout or embrace the beauty of a sun-dappled living space. UV treated, and fade resistant, our technologically advanced fabrics promote energy efficiency, giving you better control of your energy costs.

Custom made in the USA, Colourvue Control shades are made to order and built to last. Using the very best components and textiles, you can be assured your shades will provide a superior window covering solution for years to come.

COLOURVUE

COLOR YOUR WORLD FROM THE INSIDE OUT

With a touch of a button on your hand remote your shades can rise with the sun. Or as you drive home in the evening they can lower on command with your smart phone app. Energy efficiencies are in your control, by scheduling the position of your shades throughout the day, keeping your space cool in the summer and warm in the winter.

With so much control and ease, automated motorized shade systems are the right choice for our modern day homes.

THE COLOURVUE CONTROL DIFFERENCE

STATE OF THE ART

Forward-looking and innovative, Colourvue Control roller shades are fitted with a state-of-the-art Rollease Acemeda Automate™ motorized shade system which integrates with the best home automation systems, like Amazon Alexa, Crestron, and Control 4.

DURABLE

Colourvue Control are engineered to last, manufactured with long-lasting components and high quality fabrics, meaning they'll retain their functionality and vibrancy for many years to come.

ENERGY EFFICIENT

Our technologically advanced fabrics are UV treated and fade resistant and manufactured to withstand the varying climates of the US, giving you better control of your energy costs.

GUARANTEED

Colourvue Control is guaranteed with a Limited Lifetime Componentry Warranty, a 5 Years Manufacturer Warranty, 5 Years Fabric Warranty.
