### WARRANTY

### CYCLONE RATED

Via extensive accredited testing, this shutter exceeds all structural, water and debris impact performance requirements for cyclonic and extreme weather conditions.

### WARRANTY ASSURANCE

Rest assured you are purchasing a cutting-edge engineered product, offering 15 years warranty on structure and 7 years warranty on powder coat paint.

### ENGINEERED & DESIGNED

Body Corporate love this shutter! Designed specifically for high-rise, commercial and domestic applications, we've made it easy to get this shutter approved by your Body Corporate.

### PROFESSIONAL INSTALLATION

Our experienced and professional fitters will take care of your job and will ensure all safety checks for your shutters are completed during install.

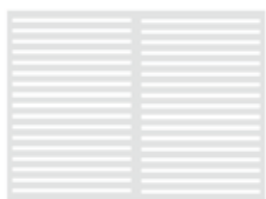

# FEEL AT EASE AND PROTECTED IN EXTREME WEATHER CONDITIONS

Cyclone tested by the University of Queensland to comply with building standards AS2047 and AS1170.2, the Weatherwell Cyclone Rated shutter has proven itself to be the ultimate in strength.

Tested in a custom made chamber, a set of air bags was uniformly applied with increasing pressure to the panels. The test revealed the Weatherwell Cyclone Rated shutter can withstand pressure of up to 8.7kPa; equivalent to withstanding high winds and gusts often seen in category 5 cyclonic storms!

While engineered for strength, the aesthetics of the shutter have not been neglected. Beautifully designed with clean lines, this shutter can transform your outdoor space through a range of practical applications.

## APPLICATIONS TO SUIT YOUR SPACE

Fixed

Bi-fold

Sliding

Stacking
